Windows   **macOS**

The **Developer** tab isn't displayed by default, but you can add it to the ribbon.

1. On the **File** tab, go to **Options** > **Customize Ribbon**.

2. Under **Customize the Ribbon** and under **Main Tabs**, select the **Developer** check box.

After you show the tab, the **Developer** tab stays visible, unless you clear the check box or have to reinstall a Microsoft Office program.
